Caro Joachim Weber,

Registro aqui meu COMPLETO REPÚDIO ao teor da mensagem que você acabou de mandar para a nossa lista de docentes. As pessoas não merecem ler o que você escreve, poupe-as, poupe-nos. Nem sei quantas pessoas você conseguiu ofender com sua mensagem (talvez todas que importam), cheio de mentiras, teorias conspiratórias e paranoias.

Não espero que você se retrate pelas ofensas e mentiras, pois acredito que seja mesmo a sua opinião. Neste caso, fica só o sentimento de revolta e vergonha.

Peço desculpas aos demais pelo desabafo.

Caro Ricardo,

thank you for your reply. I am sure you don't know any of the following.

Meanwhile I investigated and found out that 'acampamento Marielle' refers to a land robbery near Campinas by a terrorist movement called MST (Movimento Supremo Terrorista, for me as they prove themselves, while in Orwell speech it is Movimento Sem Terra).

I am very emotionalised because such group

ROBBED THE WHOLE LAND OF MY (NEW) FAMILY and MURDERED THE NEIGHBOUR

when he protested against his land being robbed as well.

The naming 'acampamento Marielle' instrumentalizes the brutal murder of politician Marielle Franco in Rio de Janeiro in 2018 which is not resolved until today. I watched an excellent documentary on Brasil Paralelo which analyses some 5 theories who could be behind the murder, it seems BP made it available meanwhile for free here (first half)

Marielle Franco appears to have been a very nice person. Strange to me, that she was a member of PSOL, a party with iNazi ideology (international socialism - murdered millions last century). A short internet research showed party members shouting down others in parliament, a radical undemocratic behaviour. The terrorist who stabbed presidency candidate Jair Bolsonaro was affiliated with PSOL as I read. According to the BP documentary (6:00) she made mestrado at UFF partly in the NGO Brazil Foundation - financed by Bank of America, Goldman Sachs, JP Morgen, Microsoft. Amazing list of ultracapitalists financiers for someone who believes to follow socialist ideas, isn't it? Well, I fell into the same brainwash/trap the moment I entered university in 1985, so I forgive young people.

I am shocked that a public Institution calls land robbery 'acampamento' and promotes support among the young people which their parents sent in good faith that they receive scientific education.

On the calouro T-Shirts of my students it is written 'defesa da democracia' and 'autonomia'. So the result is much worse

we reprogramme in a whole generation the meaning of democracy and autonomy.

We must stop this since it is suicidal for a free and democratic society. And this is why I point this out. As a lesson from the dictatorships in my country (technocracies justifying their bestialities with — science) we were educated to speak out IN THE BEGINNING of dangerous directions "Wehret den Anfängen!" just because once evil and lie is in power it is too late and then people will go the very bitter end.

In the hope of support for democracy from all and an open discussion,

sincerely,

Joa Weber
