Dear All,

election for Congregação Imecc is open now.

I, candidate in the category **Docentes – complementários**, would like to invite you for an exchange of ideas, be it by Email or in person, just contact me.

We are living in times with increasing censorship, fear mongering, blind order obeying, false flag incidents, destruction of academic excellency and autonomy, dangers to meritocracy, private property, propaganda,

but with decreasing knowledge of democratic principles:

- innocence conjecture until sentenced
- always hear the other side
- no negotiation with enemies of democracy (violence, extortion)

freedoms:

- of speech
- to decide, even over your own body

information:

- authoritarian 'trust the science' instead of citing research articles

and these are urging reasons to candidate for Congregação.

In my opinion it is crucial

- to assure critic and informed voices
- to insist on transparency
- to send a signal

Best wishes,  
Joachim Weber
